Feedback for the coming Support tab

Coming soon. Until then it collects what the support team and management need; admins and the Support lead read the answers.

Support, as you see it (names replaced).

Every data point

DATA POINT	WHAT IT SHOWS AND HOW TO USE IT
The Support tab is coming	It will be built from what the support team and management need, so it starts by asking you.
Share your needs	Tick what you would like to see, how often you would use it, and describe your biggest problem today. Must have, should have or nice to have helps us plan.
My feedback	What you sent, and whether it has been reviewed. Only you, the admins and the Support lead see your entries.
Feedback inbox	Every entry from everyone. Filter New or Must have, open one to read it all, add a private note, mark it reviewed, or download all as Excel.
